

# NATURE IS CALLING... Pick Up These Native Plants Saturday, May 22nd (8a-4p) & Sunday, May 23rd (10a-4p)

Support the work of the GTCD by purchasing beautiful native plants to improve your backyard habitat. Native plants are well-adapted to this region, requiring less watering, fertilization and care than non-native species. Native species also support wildlife and biodiversity in our natural communities.

You can learn more about the species offered, and see photos of each plant online at [natureiscalling.org](http://natureiscalling.org).
